

Portable Solution. Powerful Results.

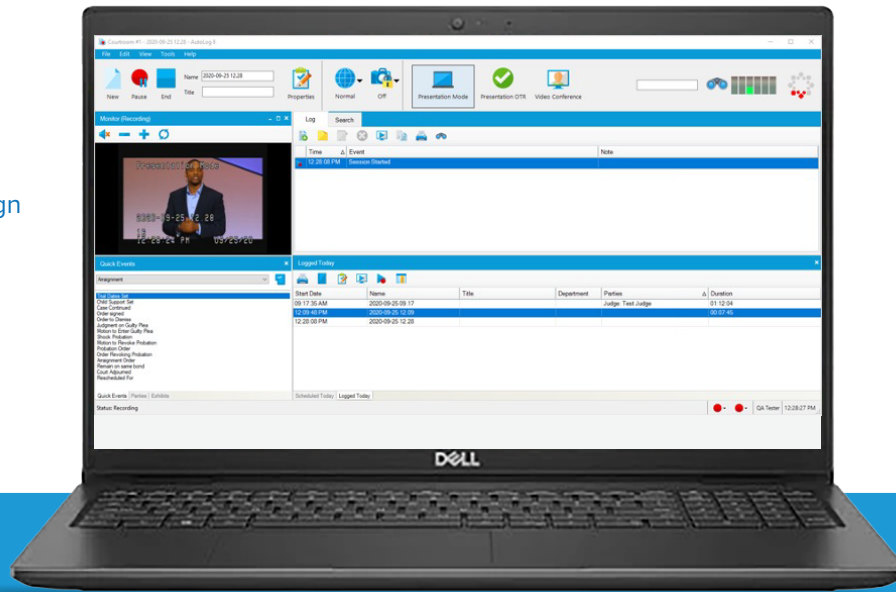

The JAVS Laptop Recorder is sleek and lightweight, making it effortlessly portable. Take it anywhere, set it up in seconds, and never miss a moment in the courtroom. Simply connect it to your USB audio device, and you're ready to capture crystal clear audio effortlessly. You can add a camera to the Laptop Recorder to capture all activities in your room. You can now easily record in the field, and bring your recordings back for export on your enterprise JAVS system.

Compact & Portable Design
